INVENTING A FOOD SAFE WORLD

DISHWASHING HYGIENE

ELITE is used to efficiently clean pots, pans and dishes manually. For food plant use and other food services such as: restaurants, cafete-rias, catering services, supermarkets.

ELITE 7816

Concentrated liquid hand dishwashing detergent, for pots & pans and dishes in general

INSTRUCTIONS FOR USE

Preparing the cleaning solution: Start by filling the sink halfway up with hot water, then add the **ELITE** product, and finish by topping off the sink with hot water.

For dishwashing: Use 10 to 40 ml of **ELITE** detergent (depending on how greasy the dishes are) per 10 litres of hot water.

For pots & pans: Use 15-50ml of **ELITE** detergent (depending on how greasy the pots & pans are) per 10 litres of hot water.

Rinsing: Rinse the dishes using clean water.

Important note: All surfaces subject to food contact must be thoroughly rinsed with potable water after use of this product.
